

MADE BY HAND

**KNIT-WIT FLOOR
INSTRUCTION MANUAL**

Dear customer

Congratulations on your Knit-Wit lamp.

Light transforms the space we live in, and with inspiration in the classic rice paper lantern and in the sphere of the sun the ambition for Made by Hand was to develop a new timeless, decorative knitted lamp for the modern home.

In this leaflet you will find useful and important instructions on how to assemble and mount your Knit-Wit lamp. Not two spaces are alike, so the specific space should guide you on the best use of your Knit-Wit lamp.

Should you have any questions or concerns, please contact your local store, or email Made by Hand on info@madebyhand.dk

Best wishes,

Made by Hand

SPECIFICATIONS

CE-Certified
IP20 (Indoor)
E27 Socket, max 60W
Voltage 240V

CONTENTS

1 x Knit-Wit shade
1 x 3m cloth cord and switch
1 x Tool for fastening legs
3 x Legs

Bulb not included

FINAL ASSEMBLY

1. Insert leg into fitting, with the nut-arm facing outwards.
2. Fix the the screw into the leg. You should not be able to move the leg when it is tightly secured. Repeat on all three legs.
3. Remove the nuts from the nut-arms.
4. Fit the shade on the nut-arms. Refit the nuts to secure the shade.
5. Insert light bulb. Refer to the lamping information supplied on the fixture.
6. Plug into electrical outlet.

Your fixture is now ready for use.
